VOICE USB28 HD duo NC | VOICE USB28 HD mono NC

Crystal Clear Stereo Sound In Any Environment

The Axtel VOICE USB are direct headsets designed for every type of work environment, including even the most challenging and noisiest workspaces. Depending on an individual's specific needs, the VOICE headset is equipped with a universal USB plug that enables integrati on with soft phones as well as whole Plug & Play technology that ensures systems identify the headset immediately.

The VOICE headset is available with 28 mm internal, foam speakers and a soft headband which guarantees extra comfort during extended use. Larger ear plates ensure advanced noise cancellation by isolating the user from any loud surroundings while crystal-clear stereo sound allows for undisturbed, high-quality conversations.

The USB headset also offers Automatic Gain Control (AGC), giving the user full control over any changes in speech volume by adjusting the sensitivity of their microphone.
